Share+ is located in the far upper right-hand corner of your tablet or phone. It looks like a square with a circle in it and up arrow. Share+ allows you to easily share multiple files, including videos, directly from your sales app. In general, it works a bit like a shopping cart on an e-commerce website. Plus, you will be notified whenever the recipient views the files. **There's even a little how-to tutorial inside Share+ in the dropdown!** But in a nutshell, here's how to use it...

This is awesome because **you can send big files like videos** to them in the cloud, and they won't bounce back.
